## CHINA-FINLAND Co-creating New Solutions for Education and Health, 9.10.2017

Venue: Residence of the Ambassador of Finland to China, Address: 30 Guanghua Lu, Beijing

The seminar invites experts from academia (including young scientists and experienced researchers), industry (including business developers, innovators and investors) as well as Government representatives and other stakeholders from China and Finland to present and discuss about new approaches and technologies in education and about the role of learning in addressing 21st century challenges such as ageing society and healthcare. The seminar aims to provide a platform for developing concrete joint innovation and research cooperation initiatives.
